

# ABOUT

The Python Conference is an annual technical summit for professionals, entrepreneurs, scientists & students in Tanzania, organised by the tech-community to foster collaboration & advancement of technology.

We were honoured to have the great Prof. Eliamani Sedoyeka as our guest of honour and Keynote Speaker. He is the Formerly the Rector of Institute of Accountants Arusha.

The Conference Focused on a wide range of topics which included;

- Application Developers
- Data Scientists
- Data Analysts
- Researchers
- Scientists
- Academia
- Hardware Engineers
- Web Developers
- AI & ML Engineers
- Students

PYCON is co-organised by volunteering members of the Python Tanzania Community, a team that is dedicated to advancing the use of the Python Language.

# SPEAKERS

PyCon 2021 was full of presentations selected by the program committee covering topics which include:

Data Science, Machine Learning, Web, Security, Community Building, Blockchain Systems, Python Education and More

Tanzania Software Developers were challenged, to develop a vibrant community that would ensure that Tanzania is inline with the aspirations of the 4th Industrial revolution since PyCon community forms part of a think-tank that ought to play a vital role in the development of ICT in Tanzania in the era of the digital economy.

## Thanks to our sponsors

PyCon Tanzania is generously sponsored by organisations that support its aims. Sponsorship of PyCon gives organisation regional visibility, recognition and eco-system exposure. It is an excellent way to support the Python language community, the software developers and the open source software in Tanzania.

Each sponsorship opportunity includes the additional benefits as described in the prospects below which are based on the organisation's sponsorship.
